

CHAMPAGNE
CAILLEZ LEMAIRE
 FAMILLE VIGNERONNE À DAMERY

Madame, Monsieur, Dear Clients

We are pleased to send you our 2nd Newsletter.

The harvest is already far behind us... Most of our vineyard was harvested in August. **This is the first time** that our champagne house has ever had such an early harvest!

For the 3rd consecutive year our vines produced very high quality grapes: 2018, 2019 and 2020 will all be excellent vintages to discover in a few years!

Once again this year, however, we lost some grapes to excessive heat, shriveled by the sun. We are experiencing the effects of climate change and it is becoming a cause of concern.

We have always sought to limit our impact on the environment. In 2014, we were awarded the **HIGH ENVIRONMENTAL VALUE** label.

Moreover, on August 1, 2020, we began the conversion to **ORGANIC** wine growing. Although consistent with our deepest convictions, this requires a big commitment on our part, but since we are passionate about our work, it was an obvious decision to make. We believe that it is worth taking a risk in order to move toward increasingly natural wine production.

Recently, we had the honor of answering a call to action from the **Syndicat Général des Vignerons** who had organized an initiative to offer champagne in support of care givers and medical staff here in our region Grand Est.

We hope all is well for you and your loved ones during these troubled times.

Please be assured that we have taken measures allowing us to safely welcome you If you would like to visit us. If you are not able to travel, we will be happy to research the best way to get your bottles to you.

CONTACT US

"Champagne is a catalyst for optimism, limited to any and all occasions!"

Our champagne range includes many wonderful cuvées to accompany and compliment a wide variety of dishes, or simply make an everyday moment special.

For more information and a description of our cuvées please visit our website.

Wishing you all the best and hope to see you soon,
 Laurent et Virginie
