

CHAMPAGNE  
**CAILLEZ LEMAIRE**  
 FAMILLE VIGNERONNE À DAMERY

Dear Madam, Sir, Dear clients,

**Wishing you health and serenity for the new year.**

For our vineyard, we hope for more favorable weather conditions this year.

In 2021 we made so much effort, for such a small harvest! The spring frost and constant humidity in June and July of the past year have forced us to bring our reserve wines into play.

**As you may have noticed, our bottles have been given a makeover!**

We felt, along with our daughter Pauline, that our bottle labels should more effectively represent our philosophy of purity and transparency:

- The **simplicity of these new labels** reflect our most natural practices, in the vineyard and in the cellar.
- The indication "**famille Vigneronne à Damery**" affirms our status as artisanal farmers devoted to their history and their land.

The refinement of these labels will also allow us to continue their evolution in the future. In addition, a more informative back label will allow you to better understand the cuvée you are tasting.

Although the weather in the vineyards is not so good, conditions for our sales have been excellent! Export markets are developing and diversifying and business got a boost from our restaurant and wine shop partners in France.

We would be happy to welcome you, if you would like to come visit us, but strongly advise that you to make an appointment beforehand.

In the hopes that you will have many wonderful and memorable moments, shared with our champagne, we send you sparkling greetings,

Virginie et Laurent Vanpoperinghe
